Why Choose Horne's Pest Control?

1. **We were established in 1966.** It is a sad fact that businesses fail regularly. Don't you want your home to be protected by a company with a solid foundation and decades of business longevity?
2. **We are able to accommodate you.** We openly say "we are large enough to handle your business but small enough to care for your business". What this means is that we have a staff of over 30 technicians. This enables us to provide emergency service within 24 hours – often times within the same day. In addition, if one of our technicians cannot make it to work, we are often times able to rearrange schedules and shift non-priority calls to another day so that we may keep scheduled priority appointments. We rarely have to cancel scheduled appointments.
3. **We have a tenured and educated staff.** We have more graduates from Clemson University's Pest Control School, Clemson University's Termite Control School and the University of Georgia's Structural Pest Control Training Program than any other company in the CSRA. We have several graduates from Purdue University's insect control correspondence schools. We also have technicians who have completed and attained certifications for Food Handling Establishments, Commercial and Institutional pest control such as "Serve Safe" and "AIB". We have multiple technicians with over 10 years in the business, a few with over 25 – there is an attained wisdom with this kind of longevity. A wisdom that cannot be taught in a text book. We have this wisdom.
4. **We are authorized, certified, and trained in the use of multiple products by several manufacturers.** Simply stated: We know and use the best products. We are familiar with all of the major insect control remedies – we have made a decision on which we believe are the best and that is what we use.
5. **We offer the best warranties.** There is not a termite damage repair warranty more comprehensive in its scope than ours. We offer a 4-month warranty on our pest control and yard insect control services – even for fleas. We also offer a 4 month warranty for mosquito control service. Our Fire Ant service for your yard comes with an incredible one year warranty.
6. **We believe that our reputation is our most valuable asset.** We realize that our reputation is no better than our last service at our last customer's home. It is this philosophy that enables us to maintain our A+ accreditation with the Better Business Bureau, be recognized as a "Super Service Award" winner with Angie's List, and be chosen by the readers of Columbia County Magazine as the "Best Pest Control Company" year after year.
